PCT Law Group will immediately move into Fitch, Even's Washington D.C. office to enhance the alliance between the two firms.

Fitch, Even, Tabin & Flannery is a full service intellectual property law firm. With offices in Chicago, Washington DC, San Diego, Boulder, Los Angeles and San Luis Obispo, we can support the needs of our clients anywhere in the country. We are experts in intellectual property litigation, and in the specialties of obtaining patents, trademark registrations and copyrights, providing patentability opinions and guidance for avoiding patent infringement, and evaluating suspected infringement of our clients' patents. We counsel clients on intellectual asset management techniques that extract more value from innovations, and have helped build and enforce the patent portfolios of many successful organizations. We help protect trade secrets and address confidentiality concerns relating to employee, customer and supplier relationships. We also help develop branding strategies and counsel clients on the adoption of trademarks, avoidance of trademark infringement, and in related areas of trade dress, domain names, and unfair competition. The firm also has an active copyright and entertainment law practice.

PCT Law Group, PLLC ("PCTLG") is a newly-formed, 100% minority-owned law firm currently headquartered in McLean, Virginia. PCTLG was founded on the principal of providing quality, cost-effective legal services to businesses competing in the 21st century knowledge economy. As such, PCTLG actively strives to understand each client's businesses and the issues they confront in today's marketplace. By fostering a close working relationship with clients, PCTLG helps them realize and achieve their business goals and objectives. PCTLG offers legal counsel and representation in four complimentary core practice areas: corporate transactions, intellectual property, employment and commercial litigation.

The goal of the alliance is to provide clients with a more diverse team of talented attorneys, and to provide a more creative approach to solving legal problems that is demanded by a global and diverse marketplace.
